

Message From Township Manger Bryan Bidlack

I along with Public Works Director Raymond Olsen, met with our trash and recycling contractors Republic Services today. We discussed the issues of delayed and missed garbage and recycling pick up throughout the Township. They acknowledged their shortcomings and contributed it to an employee shortage related to employees out sick with COVID. They have assured us that they will be caught up with all trash and recycling by Friday. We have made it clear to Republic Services our taxpayers deserve and expect better service. I want to apologize on behalf of the Township for the inconvenience. We will be monitoring the situation to assure it is corrected as promptly as possible.
