

New Collection Rules for Curbside Residents

Effective January 1, 2022, residents with curbside collections for trash will have new rules for bulk items. There will be a maximum of 3 bulk pieces per week, per residence. Bulk is defined as anything that cannot fit into a 32 gallon container OR a bag, each weighing less than 40 pounds per bag or container. Each house may have any combination of 6 bags or containers per week plus 3 bulk items outside of a bag or container. Anything more than 6 bags or containers and 3 bulk items must wait until the following week to receive collection.

****Please note that collection days will remain the same.**

Residents are also reminded that plastic bags are not permitted in the recycling stream.
