PUBLIC HEALTH ADVISORY NOTICE OF RABID RACCOON- 1/3/2023

On December 29, 2022 a resident's dogs had an altercation with a raccoon at Rocky Top Dog Park on Route 27. The raccoon was retrieved by Animal Control and turned over to the New Jersey State Department of Health Laboratory. The State Laboratory reported on 01/03/2023 that the raccoon tested positive for rabies. This is the second (2nd) rabid animal reported within South Brunswick during 2022 and the sixth rabid animal in the Middlesex County.

South Brunswick Township continues to monitor rabies cases within the municipality. Residents should report wild animals showing signs of unusual behavior to the Police Department. Additionally, it is recommended that Township residents should avoid contact with wild animals and **immediately report any bites from wild or domestic animals to the South Brunswick Health Department or Police Dispatch and consult a physician as soon as possible. Most importantly be sure that all family pets are up to date on their rabies vaccinations and licenses.**

Rabies Prevention Guidelines: The Township of South Brunswick is advising residents to follow these guidelines in order to prevent rabies from being transmitted to themselves or their pets:

1. Immediately report a bite from a wild or domestic animal to the Health Department.
Wash animal bite wounds thoroughly with soap and water as soon as possible after the bite. Contamination of open cuts or scratches with saliva of potentially rabid animals should also be washed off immediately. Consult a physician as soon as possible.
2. Immediately report any wild animal showing signs of unusual behavior such as:
 - Moves slowly
 - Appear sick
 - Have an increase of saliva
 - Acting aggressive
 - Have paralysis
 - May act as if it is tame
 - Have problems swallowing
 - Have increased drooling
 - Have difficulty moving
 - Bite at everything if excited

Residents should avoid any contact with the animal and call the Animal Control Office or Police Dispatch.

3. **Be sure that all family pets are up to date on their rabies vaccination.** If you are unsure, please call your veterinarian. Contact the Township or check the Twp. website for free rabies vaccination clinic availability.
4. Animal proof your home and yard. Make sure all garbage containers have tight fitting lids, do not leave pet food or water outside, do not allow rainwater to collect in outdoor containers or equipment and keep yard free of garbage and debris.
5. Do not feed or handle wild animals.
6. Avoid contact with stray animals, or pets other than your own.
7. Screen off vents to attics and other areas that could provide shelter for bats.
8. Try to prevent your pets from coming into contact with wild animals. **Should your pet come in contact with a wild animal, use precautions and wear gloves when handling your pet, and immediately call the Animal Control Officer or Police Dispatch.**

For reporting an incident with an animal or for additional information contact:
