TOWNSHIP STREETS TO BE MILLED AND PAVED FOLLOWING PSE&G GAS LINE REPLACEMENT PROGRAM

SOUTH BRUNSWICK, NJ (OCTOBER 17). Due to PSE&G's ongoing gas line replacement program, several Township streets are scheduled to undergo milling and paving this fall. This work will restore road surfaces following utility construction and ensure safe, improved travel conditions for residents and motorists.

The tentative paving schedule is provided below. Please note that work may be delayed due to weather conditions or other unforeseen circumstances. The Township and PSE&G appreciate the public's patience and cooperation during this important infrastructure improvement project.

Mayor Charlie Carley emphasized the value of the Township's collaboration with the utility provider, stating,

"We're proud to partner with PSE&G to ensure that our infrastructure continues to meet the needs of our residents. These paving projects are an important step in restoring our roads and maintaining the high quality of life that South Brunswick residents deserve."
